

Quips during lid campaign: many bouquets

Valle Mt. News 3700-193

Overheard

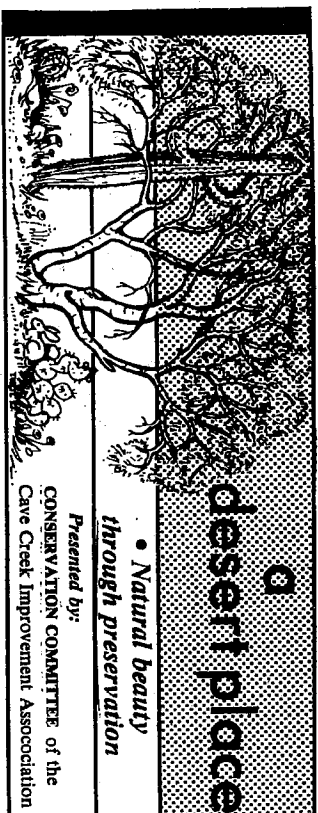

At and after the "Put a Lid on Litter" Day:

"We weren't even finished picking up and someone came by and threw cans out at us."

"As I drove down to Phoenix I was really impressed at how nice the road looked and how many sacks of trash were stacked by the road."

"This has been a great example of how Carefree and Cave Creek can work together for their mutual benefit."

"Who is doing this picking up

and how can we be notified to help next time?"

"We were out too late last night, but we promised we would come, so here we are."

"I'm on my way to the dump, but I'll come back and pick up a truckload to take back to the dump if that will help."

"Isn't this a delicious spread of food and wasn't that nice of the restaurants and merchants to donate it?"

"Wouldn't it be nice if the names of all the people and all the firms who helped could be listed and published as a public thank you?"

"I just had surgery a few months ago and after picking up for several hours I spent the rest of the day in bed, but it was worth it to get all that trash off the road — now if it would just stay that way."

"Why can other states have clean highways — we have laws against littering just as they do, but theirs are enforced."

"I'd like to take all this trash

and dump it back on the litterers."

"Some people who said they were going to be out of town and so couldn't help today just drove by!"

"Isn't there a law against letting trash blow out of your truck?"

"We followed the county truck that was picking up all the trash stacks and some cardboard was blowing off of his truck ..."

"What a good way to meet some really great people."

"You wouldn't believe all the things we found — children's shoes — ladies blouse — men's

underwear — muffler — lots of plastic gallon bottles — broken glass — cans, cans, cans, though not as many proportionately as last spring — maybe someone is turning them in — cardboard and paper and styrofoam in every size and description."

"It was really hard work but I'm glad we came — just wish more people were here so we could get all the roads."

"Is there anyone here who would be a plant parent for the scenic drive? There are still

several plants on Cave Creek Road that need caring for."

"Sure glad you brought water — we should have brought some — really get thirsty in a hurry working in the sun."

"Don't forget the meeting November 17 at the Carefree Inn at 7:30 p.m. — it's about the future of the Scenic Drive. What a great turnout — hope we can make this an annual event. Here's a huge thank you to everyone who helped."
