Reader input sought by CCIA

The beat-the-heat vacation months of July and August are here! Conservation Committee members also will be at rest, rejuvenating their energies towards an active fall program.

Therefore, in order to keep the continuity of the "Desert Place" column viable, several of the earlier and more pertinent articles will be re-presented.

Again, the invitation to our readers to submit questions, observations and opinions regarding the desert foothills flora and fauna is extended. Reader input is an important and valuable incentive to continue our goal of sharing educational information to the public.

It is rewarding to learn that the viewers' response to the committee's exhibit on display

at the Desert Foothills Library has been positive and enthusiastic. If you were unable to enjoy the presentation during June, the library has requested that it remain in place during July.

Most of the public is aware that a bill asking a minimum deposit on throwaway beverage containers is being petitioned to appear on the November ballot.

Because the committee cares about the well-being and natural appearance of Arizona's deserts and mountains, we support the positive attitude of such legislation.

In order to provide information, answer questions and encourage voter support, committee members will be available in the vicinity of both the Cave Creek and Carefree post offices all day tomorrow, Friday.
